NOTE—Contn. sheet.

1439 Mur 128-23

U. O. No. 64/P.W.D.

From- Chief Engineer Irrigation

Subject- Levying Establishment and Tools and Plant Charges on Irrigation works executed by the P.W.D. Department

Reference- Irrigation Circular No. C. 319/22 dated the 12th Dec 1922

Returns of remarks-

Noted 3/4/23

11 4/23

SH 4/4/23

Submitted 7-4-23.

According to the practice at present obtaining all Irrigation works executed by the Dept. are treated as Construction works, & Est. & Tools & Plant Charges @ 10% & ½% respectively are levied. It has now for a long time been usual to levy such charges ~~from a long time~~ in the case of Construction works, Protective works, Municipal works, Village School fund works and Embankment works, the percentage charges on account of establishment charges being different in the several cases. The only works which are exempted from these charges are the Palace works.

2. The Irrigation Circular No. C 319/22 referred to above has observed as follows.—

In this Connection Irrigation

to have it made clear if the normal provision of 17½ % or so should be made for establishment charges and tools & plant in respect of Mungrai works, as is being done for District Board works. This point has been, I believe raised by some of the Executive Engineers. Considering that the Mungrai works are Govt works for the execution of which the Govt is responsible (unlike DB and works which relate to a semi-official body) and that the addition of any establishment charges, etc., to the estimates will materially affect the resources of the institutions concerned, I would strongly recommend that no addition be required to be made for this purpose in the Mungrai estimates. The opinion of the P.W. Dept"

In accordance with the orders recently issued in G.O. No 2170-80 dated the 30th January 1923, all Mungrai works costing more than Rs. 250 and such Mungrai works costing Rs. 250 and less as the Dy. Comr think should be carried out ~~by the Public Works Dept~~ by Engineering Agency will have

Mucr 128 - 23

to be executed by the P.W. Dept

and, in Case, as suggested by the

Mungrai Comm^n, the Mungrai

works are to be exempted from the

payment of Est & Tech & Plant

Charges, it is feared that

the percentage which the

establishment charges at present

bear to the outlay on works and

repairs, which is already

high, in this Dept, will have to be higher.

~~up~~.

4. Further, the Mungrai Comm^n

~~Recommend~~ are of opinion that ~~the~~

Mungrai works are not works,

cannot be easily ~~followed~~ subscribed to.

In many cases, the cost involved

of Mungrai works is borne

by the institutions concerned, and

it is only in such cases where

the resources of the institutions

are poor, that Govt. give a grant.

5 It is therefore considered that

there is no justification for waiving

the establishment & tech. & Plant

Charges in the case of Mungrai

works. In special cases, however,

orders of Govt may be obtained to waive

the charges. Such charges.

No ~~Recommended~~ the

Recommended, with Compliments

Serial No.

D. 521

With the reduction of grants for works, the relation between outlay on works and cost of establishment of the Public Works Department is becoming more and more abnormal. If concessions in the way of reduced establishment and tools and plant charges are shown in the case of ~~is to~~ works of other departments or Bodies executed by the Public Works Departments, the disproportion between works outlay and cost of establishment will be more accentuated and form the subject of adverse criticism in the Representative Assembly and the Legislative Council. In fact this very point was discussed at very great length yesterday at the meeting of the Budget Finance Committee. If the Muzrai works cannot bear these charges, the only straightforward course is to give the Muzrai Department an increased grant from State funds to bear such charges and relieve the Public Works Department of such part of the cost of establishment as does not legitimately relate to its own works ~~carried out by its~~. In view of the said disproportion and the increasing adverse criticism to which it is being subjected by the public, I would suggest that a re-examination may be made of the rates now charged on account of establishment and tools and plant to other departments and Bodies the works of which are carried out by the Public Works Department and that suitable remedies

General and Revenue Secretariat.

File No. 125-23 (55) of 19

Serial No 494 23-8-23.

All Muzrai works may be classified under one or other of the following heads:-

(i) Works undertaken entirely from funds at the credit of the Institutions concerned.

(ii) Works carried out from funds at the credit of the Institutions or collected by the devotees, supplemented by contributions from the State Grant for the Muzrai Department.

(iii) Works sanctioned entirely from the Muzrai State Grant.

In respect of works falling under class (i), which are carried out by the Public Works Department, the usual percentage (of 18%) for establishment, tools and plant may be included in the estimate and debited to the institutions concerned and credited as contribution to the Public Works Department.

With regard to works coming under classes (ii) and (iii) for which sufficient funds for the works themselves are not available at the credit of the Institutions and which have therefore to be paid for either partly or wholly from the State Funds, I would suggest that the percentage charges for establishment, tools and plant may be borne by the Public Works Department itself and not debited to the Muzrai Department, as it will be impossible for the Muzrai Department to meet the amount of these charges unless the annual State Grant is increased by an equal amount.

I invite reference to my note dated 14th. June 1923. Waiving of contribution means, increasing the establishment charges to be borne by the Public Works Department. Such increase is, as I have already stated, not fair to that department. Wherever contribution is waived, it is necessary, I think, ~~as I have already stated~~, that the arrangement should not be to the prejudice of the Public Works Department. The value of the concession shown to Muzrai institutions and other Bodies may take the form of a grant-in-aid. Such a procedure will not only show the financial aid afforded to such Bodies, but, will also save the Public Works Department from the unmerited criticism to which it is now being subjected for ~~showing~~ the disproportion between Works outlay and Establishment charges.

Order ~~Thereon~~ No. 86- 11- 23

The Govt have had under their consideration the question of revising the establishment and Mant charges for

Murree works executed by
the P. W. In view of
the recent reorganisation
of the P. W. D resulting in
the abolition of the District
Mamma Establishment,
and on a consideration
the fact that Murree works
are Govt works for the
execution of which Govt
are responsible unlike
District Fund works which
relate to a local official
body) and that the
Additions & any Establishment
Charges to the Estimates
will materially affect the
resources of the institutes
Concerned the Murree
Comm^r is of the opinion
that no additions be
required to be made for
this purpose in the Murree
Estimates executed by the P. W. D.
